

CliffCo Members and Guests

Vietnam – This trip is unlike any other that Americans have seen.

We dug deep. In addition to all the venues, make sure you see the menus with details among location, food and local culture.

We are grateful that our contacts were responsive to our repeated asks, tweaks and turns to make it better. We kept turning that dial of high performance until we framed a journey of a lifetime.

We cut out middlemen to give and get more in this graceful S-shaped land – renowned for its stunning natural scenery, rich history, and vibrant culture from the lush mountains of the North, the cultural treasures of the Central region, to the dynamic spirit of the South that we will experience twice.

This carefully curated CliffCo itinerary offers you the opportunity to truly immerse yourself in the heart of Vietnam, where tradition meets modernity, where every meal tells a story, and where the hospitality of the people leaves a lasting impression.

Our CliffCo team and contacts in Vietnam went that extra mile and extra effort to ensure we had the best hotels, best food and, the best plan that can be offered in Vietnam.

We can now discover the soul of Vietnam.
